about

Heath & Alyssa are full-time RVers, bloggers, and filmmakers who live, work and travel out of a Winnebago Brave.

Since 2014, they've produced a documentary called Hourly America, created a top-ranked travel podcast called The RV Entrepreneur, written a best selling book on RV life, and blog about the RV lifestyle at heathandalysa.com. They host the annual RV Entrepreneur Summit with 250+ attendees.

"In the short span of three years Heath and Alyssa Padgett have become the "it" couple of American RVing. Their energetic and inspiring entrepreneurism have built them a large following of current and future RVers across all ages and all parts of the country. As Winnebago's youngest brand ambassadors, they have proven that a venerable brand still has the possibility to be hip."

Don Cohen, Editor-in-Chief of WinnebagoLife.com

Brands We've Worked With

Over the past few years, we've worked alongside some of the largest RV brands to produce engaging content driven campaigns.

2017 Video Project Examples:

- 1 million views generated in 30 days while working alongside Winnebago team to produce and release promotional videos for their new line of RVs.
- Over 100,000 views hosting Facebook live videos with GoRVing
- 30k+ Youtube views during weeklong RV road trip in partnership with Florida Keys Tourism Association

Go RVing.

Why Work with Us

Our community takes action.

Last year we hosted a sold-out conference called The RV Entrepreneur Summit, sponsored in part by Winnebago. Five attendees bought Winnebago RVs after the Summit, with many more emailing us saying they bought a Winnebago on our recommendation.

We're loud for brands we love.

We love finding great products and services that make the RV life better. We installed a weBoost cell booster on our RV and posted a video on how much we love it. We became an affiliate partner and were their top seller in 2017.

We can create engaging content for your brand.

The best way to attract new customers is by creating engaging content. We can produce video, blogs, and photos for your brand as well as distribute the content to our existing audience.
